

Energy Policy and Plan

This document deals with policies and plans to manage energy usage at Lakeland Dairies' Newtownards Site (which may be referred to as "Pritchitts").

It acts as a link between a number of other documents and agreements, namely:-

ISO14001 system

Climate Change Levy Agreement (CCLA)

EU ETS

This Policy and Plan document will be reviewed annually.

Energy Policy

It is company policy to make continuous improvements in our energy efficiency and to thereby enjoy benefit of reducing our emissions of carbon dioxide, and other gases, relative to our production levels.

It is company policy to meet and indeed exceed targets agreed within our CCLA.

Planning and Organisation

Climate Change Levy Agreement (CCLA)

Pritchitts intends to meet the targets set in Schedule 2 of our Underlying CCLA for the Dairy Sector (an agreement made between Pritchitts and the Secretary of State for the Environment, Transport & Regions). Targets for the first two milestone periods have been met & data submitted to Dairy Energy Savings Limited (DESL).
